

Renovation News

Fall 2002

Bayview Elementary

Construction is underway at Bay View Elementary

First phase complete with second phase currently underway

"The constuction team worked with the school's staff and revised the phasing plan to better meet student needs."

***Dan Cavanaugh
Principal***

The interior of the multipurpose building has been repainted, a new floor installed, the stage has been enlarged and new tables have been purchased. All restrooms on campus will be completely redone with new fixtures, partitions and tile on the walls and floors.

The entire campus will have an upgraded electrical and data system, improved heating and ventilation system, a new phone and intercom system and the fire alarm-security system will be improved. The exteriors of the buildings have been repainted and extensive sitework completed.

Phase II is underway in the west kindergarten building and Phase III work on the remaining portables is scheduled to begin in December.

Bay View Elementary School has the distinction of being the largest elementary school in the Santa Cruz City Schools District. It has the largest student population, the largest staff and the most program offerings. DES Architects + Engineers of Redwood City was retained by the District to assist in determining the best design and modernization plan to enhance these unique qualities and take the school into the 21st century. After alot of discussion with school staff the modernization plan was broken into three phases.

In June, with smiles on their faces, students embarked on summer vacation. Simultaneously, Watsonville Construction Co., Inc. arrived on campus to begin work, mobilizing its team of subcontractors.

The scope of Phase I involved renovation of the administration-classroom building, the library-media center, the multipurpose building and the five portable classrooms to the south of campus. This work included new finishes in classrooms: new paint, new carpet and/or vinyl floor tiles and new marker boards. The library-media center received paint, new vinyl flooring and new casework.

Refinished classroom - local bond measure at work

Bond Oversight Committee:

- Laurie Bair
- Steven Barisof
- Doug Cook
- Matt Farrell
- Dr. Jim Logsdon
- Judy McGooden
